

Easing of entry restrictions results in further expansion of flight frequencies to Sri Lanka

Air frequencies to Sri Lanka are beginning to expand with easing of entry restrictions for tourists. The latest amongst them is Qatar Airways, which is a major air service provider to Sri Lanka, has now resumed its pre-pandemic frequency of five daily flights to/from Colombo.

Currently fully vaccinated passengers do not require even a pre-departure negative PCR/Antigen test. What is necessary is to only carry an English version of the vaccination along with the original certificate.

Other airlines servicing Colombo include: Qatar, Emirates, LOT Polish (via Warsaw); SriLankan Airlines (through London or Frankfurt), Turkish Airlines, Air France services destination to Sri Lanka.
