

## **Now is the time to invest in Sri Lanka - Governor Dr. Nandalal Weerasinghe**

Central Bank Governor Dr. Nandalal Weerasinghe together with CT CLSA Consultant Securities Marianne Page urged foreign institutional investors (FIIs) to take early positions in Sri Lanka today to enjoy faster and better returns from the country's road to recovery and growth.

The Governor was quoted in media, "It is time to take positions on Sri Lanka. If you come now, returns will be faster and better. It is time to invest in Sri Lanka," while Marianne Page's said : "Amidst crisis, the private sector has been resilient and now is the time to invest in Sri Lanka."

It was pointed out that Sri Lanka has reached the critical disinflation path in October which Dr. Weerasinghe described as the "best outcome" thus far. "Even the IMF didn't believe inflation can be turned around so fast," he said, adding that by the end of next year the inflation can be brought back to low-single digit levels of 4-5%.
